euro truck simulator 2 - belgian paint jobs pack

Good paintjobs. I have been waiting so long for this :3. HELP, i bought it and when i went into the costumisation menu i just say flag decal wich is a tiny flag on both doors of the truck not like on the pics. No shame in being a bit patriotic I guess ;').
As a Belgian, I obviously bought this on release. It took to long, I do believe that countries in the game should've been done first instead of for example Japan (sorry my Asian friends). I waited on this and I am happy with the result. I love how they took the fact that the country is split in three into account. I really like how they've done a Flemish and a Walloon one with the lion and rooster respectively. And to mark out our capital\3rd part the Brussels city skyline looks very nice. There is also very simple flag but also a really nice flag across the whole truck. As a Flemish person I approve this for sure.
